Zwijndrecht, 22 July 2004

Dear Sir/Madam!

FIWADO Enns GmbH (TOTAL-Group) is working since November 2003 with 3 **radio-controlled filling- and overfill-prevention-systems** (1 on a bunker-ship, 2 on bunking stations) **LRC-Small/Opto** from Security & Electronic Technologies GmbH, Austria, to the entire satisfaction of the owner and the users. FIWADO is especially convinced of the reliability of LRC-Systems as well as the service-friendliness and the convenience in use and the resulting time- and cost-saving.

This is the reason why the parent-company FIWADO B.V. in Zwijndrecht/NL now is working on analysing the realisation of equipping their complete range of stations and ships with LRC-Systems to offer their employees the advantage of efficient and successful work.

With best regard,

A handwritten signature in blue ink, appearing to be "C.F.M. Theuns", with a long horizontal flourish extending to the right.
